TNT2006 Trends in NanoTechnology

Passport to Prizes

How does the "Passport to Prizes" program work?

- Each TNT2006 conference attendee has been issued a passport card at registration. Attendees will take their card around the exhibit hall on Monday, Tuesday and Wednesday. Each attendee will be responsible for collecting stamps from the participating exhibitor companies listed on the passport.

- Once you have completed your passport card with a minimum of 10 stamps, **fill in your personal data** and take the card to the ticket tumbler located in the Registration Area.

- All completed entries will be eligible for a prize drawing (**two MP3 FM Creative Zen Plus 1Gb players, an external 80Gb USB hard disk and a 2Gb memory stick**) that will be conducted on the evening of Wednesday (6/9/06) during the Poster Award Ceremony.

- **Winners need to be present to win**.
