

Graphene one-day Symposium organized within TNT2013

Madrid (Spain): July 8, 2013

On the occasion of TNT 2013, the 14th edition of the Trends in Nanotechnology International Conference ([TNT 2013](#)), a Graphene one-day Symposium will be organized in Seville (Spain) at Hotel Silken Al-Andalus Palace.

This one-day event will be organized in collaboration with ICN2 (Spain) and will take place on September 10.

The Graphene Day entails a plenary session during the morning and the afternoon session will be divided in track A (**Graphene science driven oral contributions**) and track B (**Graphene driven applications** Keynotes & Graphene Flagship dedicated session).

Confirmed Keynote speakers:

- Nicolas Agrait (Universidad Autónoma de Madrid, Spain)
- Paolo Bondavalli (Thales Research & Technology, France)
- Stefano Borini (Nokia Research Center, UK)
- Costas Galiotis (FORTH/ ICE-HT, Greece)
- Satoshi Moriyama (NIMS/MANA, Japan)
- Matthias Schwab (BASF SE, Germany)
- Pierre Seneor (CNRS/Thales, France)
- Thomas Szkopek (McGill University, Canada)
- Andrey Turchanin (Universität Bielefeld, Germany)
- Amaia Zurutuza (Graphenea, Spain)

During the afternoon, 3 talks from members of the FET Graphene Flagship (Mar Garcia Hernandez, Vladimir Falko and Stephan Roche) will be featured providing a unique opportunity for broad interaction. Three Work-Packages from the Graphene Flagship will be presented, namely Materials (WP1), Fundamental science of graphene and 2D materials beyond graphene (WP3) & Spintronics (WP6).

The price to attend the Graphene Day is 125€ and the entire Conference (5 days) starts on 420€.
