

The 16th Trends in Nanotechnology International Conference (TNT 2015) takes flight in Toulouse

Call for abstracts about to close

Madrid – May 25, 2015

Over the past 15 years the Trends in Nanotechnology International Conference (TNT) has been presenting a broad range of research in Nanoscience and Nanotechnology and more than 4600 attendees joined (an average of 300 participants per edition).

The 16th edition will take place in Toulouse from the 07th until the 11th of September 2015 and features **36 high level Speakers** (Keynote & Invited).

The South-West region of France is one of the main science and technology hub from Bordeaux to Montpellier via Toulouse where all large national research institutions have developed laboratories and institutes on or near University campuses.

Two specific sessions will be organized within the conference:

- **Graphene & 2D materials one-day symposium** organised in collaboration with ICN2 (Spain)
- Nanoarchitectonics organised in collaboration with MANA/NIMS (Japan)

The call for abstracts will close on Friday May 29, 2015 (www.tntconf.org/2015/abstractSub.php?conf=15) and the early bird registration fee June 22, 2015.

TNT conference provides an ideal venue for industrial, academic and governmental organizations to share common objectives and drive the **commercialisation of nanotechnology discoveries**.
